NOTICE OF ALLOWANCE

Allowable Subject Matter

1. It is in the opinion of the examiner that the art of record neither anticipates nor renders obvious the method of producing a plate-shaped workpiece and a threaded projection extending from the body of the workpiece comprising steps a and b set forth in the independent claim 17 and the apparatus as set forth in the independent claim 25.

2. Further searching by the examiner yielded additional prior art as follows:

Perrault et al. (US Patent 4,266,310) discloses an arrangement for forming metal having punch tools (Figures 6 and 7) that form cuts and threads and then the lug portion is bent into a circle.

Lombard (US Patent 2,077,120) discloses a fastening means having leg elements 1 and 2 with threads 5 on the side.

3. Based on applicant's arguments and the examiner's review of the Office Action of January 4, 2006, the claimed subject matter is deemed to be allowable. Further explanation can be reviewed in the applicant's arguments filed on May 31, 2006.

4. Therefore, it is concluded by the examiner that claims 17-33 of the present invention are allowable.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
